DVPN NODE LAUNCHING

Following are the eligible wallets that can create the first 1000 DVPN nodes. Wallets will be added to the whitelist in tranches.

As of August 31, 2021, 2:30pm PDT, if you have serial number 1 through 1000, (see below) you may now create a DVPN Node. If you are eligible, please check your "My Nodes" page for instructions on how to create one.

For the first 1000 nodes, only one node will be allowed per wallet.
NFT boosts are currently not supported on dVPN nodes.

Metal NFT wallets were selected as follows:
